BRCGS Professional

Name:

Ahmed Salah El-Ghobashy

Country:

Egypt

About you......

I graduated from the Food safety department with an excellent honor grade and ranked as second . After finishing my military service, I learned German from Goethe institute, IELTS from British council so I could apply for a Masters degree in Germany at Hohenheim university faculty of natural sciences. However, because of the Covid-19 pandemic, I was unable to do so. Now I am a Food safety manager.

I also have numerous hobbies outside of work like playing chess and football, reading scientific books, microbiology science and languages.

Why did you join the BRCGS Professional Programme?

This programme plays a tremendous role in shaping my food safety career as a way of progress and enhances my skills . At the same time , this programme manages the food handlers to produce food in a higher safe and quality.

What value do you personally feel the BRCGS Professional certification brings to you?

It's a great joy to achieve and fulfill this programme. I have gained a huge value that I can protect food from all types of hazards and contaminants and deliver it to all people across our globe safely.

How has the training helped improve operations at your site/company?

It has enhanced and improved our product safety and customer satisfaction in addition to brand reputation.

What did you most enjoy about the training?

BRCGS' training was delivered in an attractive and interesting way.

What are you most looking forward to within the professional community?

I am looking forward to exchange fruitful information and knowledge among professionals and to also attend networking events.

How do you plan to keep your skills up to date?

I am planning to review regularly the BRCGS Programmes and to follow all sites which relate to food safety. In addition, I plan on attending all events which can enhance my skills.

What are your career ambitions/aims?

I intend to establish my own company and implement BRCGS standards to produce a high quality and safe food and to export my product across the globe .
