

Company Name:

ESBE ITALIANA

Can you please introduce your company?

ESBE ITALIANA, founded in 1966 in Rapallo (GE), became part of PIBER GROUP in 1982, completing its product range.

It is currently headquartered in Rivanazzano (PV) in the new and modern plant that covers an area of 30,000 square metres, 5,000 of which are covered.

ESBE's activity, within the group, is to transform, on behalf of Pibergroup, customer requirements into finished products that are primary packaging in direct contact with food in the sector of rigid plastic moulding and printing/ decorating processes and assembly of polythene board.

The technologies and know-how constituting the company's assets concern the extrusion of thermoplastic material, the decoration of the anonymous foil with rotogravure printing technique, the thermoforming of the foil whether anonymous or pre-printed, the decoration of the thermoformed container with offset and screen printing techniques, with the application of cardboard and sleeve labels. In 2021, the processing of alone polythenate cardboard for application in the ice cream sector was developed for the first time within the Piber Group at Esbe.

Today, ESBE's production activities are divided into five product categories:

- ice cream containers;- fast-food;
- deli containers;
- containers for margarine and other foods;
- containers for dairy products.

ESBE ITALIANA has a Quality System certified according to UNI EN ISO 9001 and since 2012 has obtained BRC/ IOP certification for the sleeve department only, then reconfirmed year by year until 2018 with the subsequent extension to all processes and departments of the plant according to the BRCGS Global Standard for Packaging Materials.

Why did you choose the BRCGS Standard?

The use of this Standard is for ESBE the most useful tool that allows the company to implement and continuously improve a hygiene management system as well as constantly pursue a solid path of culture of Quality and Food Safety of its products.

What are the benefits being BRCGS certificated?

In addition to this, an other benefit of having a BRCGS certification is that we can be recognised internationally as a company committed to guaranteeing its customers and end consumers that its products are safe, of high quality and comply with regulations.
