

**Executive Profile:**

Angela Lawless received a Bachelor of Science Degree in Biology from Wofford College, a Master of Science Degree in Food Safety from Michigan State University and a Certificate in International Food Laws from Michigan State University. Angela is also a Certified Quality Engineer (American Society for Quality).

Angela is an experienced technical program developer, technical leader, project manager, account manager, food safety/quality and regulatory specialist and experienced in global food law standards and organizations, including Codex Alimentarius, FAO, WHO and specific countries' food laws (U.S., Canada, Latin America and Asia).

Angela has extensive experience in all aspects of food safety, quality and regulations, including quality control, quality assurance, research and development (package and product), HACCP, CGMPs, pre-requisite programs, food defense, recall management, crisis management, business continuity, supplier management, food safety and quality systems auditing, BRC Issue 7 and specification development. Angela is very knowledgeable about the Food Safety Modernization Act (FSMA) and has consulted with many companies to help them prepare for the new laws. She is approved to teach PCQI workshops. Angela has also worked with companies on standardizing global crisis management programs.

Angela held management positions at Tropicana Products, Inc. for 18 years in Quality Control, Quality Assurance and Research and Development and worked for RQA, Inc. as Director of Crisis Management for 10 years before joining red24 in 2015 as Executive Vice President – Product Risk – The Americas.
