About you...

I graduated from Istanbul University Veterinary Faculty. I have a master degree in food hygiene and technology from Istanbul University and I'm currently doing a doctoral thesis about food safety system. I work as Food Safety Specialist. I have +10 experience in food safety and quality assurance field.

Why did you join the BRCGS Professional Programme?

I preferred this program because of it is a one of Global Standards and includes different modules about the food sector.

What value do you personally feel the BRCGS Professional certification brings to you?

I believe this program has helped me develop skills about food safety auditing, risk assessment, root cause analyzes. I think that I have gained an important and valid certificate for my career globally.

How has the training helped improve operations at your site/company?

I gained new perspectives and knowledge for improving and developing the my company's food safety system.

What did you most enjoy about the training?

I enjoyed that this program's trainings includes a lot of useful case studies about different parts in the food sector.

What are you most looking forward to within the Professional community?

As part of this community, I will be able to connect with people that are professionals in the food safety industry around the world. I look forward to gaining new experiences and different knowledge from this community.

How do you plan to keep your skills up to date?

I plan to follow new webinars, BRCGS educate platform and courses to stay up to date.

What are your career ambitions/aims?

I would like to develop my knowledge and evaluate for my career. Achieving certification as a BRCGS Professional will play a significant role in achieving this goal.
