

**Company Name:**

Elpes

### Can you please introduce your company?

Elpes is a group of highly skilled and experienced professionals, who aim to satisfy its customers by producing safe, sustainable and remarkably decorated packaging, using the most modern technology and components that are available. Top quality, quick lead-times, flexible approach, speed-to-market and customer orientation are what makes us stand out on the market. Our laminated tubes are used all over Europe in the following industries: food, beauty & cosmetics, oral-care, household and pharma.

### Why did you choose the BRCGS Standard?

Main values of Elpes:

1. Experience - we want to share the experience we have with you. We listen to your needs, and then we guide you through the implementation, printing and production of tubes.
2. Liability - we value honesty and do not pretend. Thanks to openness and transparency, we are a reliable and responsible partner.
3. People - our team is the foundation of our company. Each of us is different, but we have common goals and we are moving in the same direction.
4. Environment - everything we do leaves its mark. That is why we treat environmental protection as our priority. When planning our activities, we always think about how to minimize their impact on the natural environment.
5. Sustainability - we want to develop in areas that need development the most. We invest in technology and people where it improves the quality of life of local communities. We are part of these communities and we make sure that their members feel that we are acting for them. We do this because we know we could not operate without them.

We choose BRCGS because it is aligned with our values. BRCGS is market-leading global brand which is recognized by all our customers and suppliers. Being certified by BRCGS means comply with highest standards and confirm that our company live according to the best standards.

BRCGS logo placed on our website is confirmation, that our products are safe and our organization is well organized.

### What are the benefits being BRCGS certificated?

BRCGS certification is a confirmation for our customer to comply with harmonize food safety standards across the supply chain. Our organization has gained new competences about food safety standards and improved our internal procedures. That makes our company better organized and our products safer a well as it improves the whole supply chain. Certificate BRCGS distinguishes us on the global market of packaging materials.
