

Name:

Katherine Naula Peralta

Country:

Ecuador

About you.....

I am a Chemical Engineer, graduated from the Escuela Superior Politécnica del Litoral (ESPOL), located in the city of Guayaquil, Province of Guayas, Country Ecuador.

I currently work in a BRCGS certified frozen raw shrimp packing house. I lead the Management Systems area, being responsible for the certifications maintained by the Organization. We started with the standard in version 7 and remain current under version 9.

Every day in the Food Industry is a learning experience and a new challenge, which is why continuous training is essential.

Why did you join the BRCGS Professional Programme?

I joined the BRCGS Professional Programme as it was a great opportunity for professional growth and acquiring new knowledge in product safety management.

What value do you personally feel the BRCGS Professional certification brings to you?

It has allowed access to a broader community of Professionals, the chance to acquire new knowledge and be able to share experiences and/or methodologies that contribute to strengthening product safety management.

How has the training helped improve operations at your site/company?

It has allowed us to establish improvements in our management system, as well as develop an organizational culture focused on safety, providing greater confidence to our customers.

What did you most enjoy about the training?

The case studies that correspond to real cases in a food industry, as well as the experience and teaching methodology of the instructors.

What are you most looking forward to within the professional community?

I am looking forward to acquiring new knowledge and be able to share experiences and/or methodologies with BRCGS Professionals from around the world.

How do you plan to keep your skills up to date?

Through the BRCGS platform, in order to be updated on changes in regulations and available courses.

What are your career ambitions/aims?

I would like to support other employees of the company that enroll in the programme and I would like to belong to a certification body that allows me to know and audit the different industries in which the BRCGS standard is applicable.
